Yakal and Malugay St., Barangay San Antonio, Makati City, Metro Manila, Philippines

Experience

Boom Technologies Inc.

Web Developer Intern (Full stack Developer) *Nov 2025 – Mar 2026*

- Led full-stack development with co-interns while delivering the core platform, dashboard, and frontend integration of 3 AI systems — RiskSense, Detectify, and Clarity supporting a production-ready user experience across the platform.
- Contributed 2 of 3 generative AI features, unified all 3 AI capabilities, and implemented usage limits of 100 requests per week and 3 requests per guest user to ensure controlled access and stable performance.
- Optimized performance by reducing AI generation time from 15 seconds to 5 seconds, improving API response time from 400 ms to 150 ms using Redis caching, and increasing SEO score from 78 to 92.

Projects

Clarify (AI Platform – 3 AI Integrated Feature)

React.js, TypeScript, Redux Toolkit Query, FastAPI, PostgreSQL, Python, Redis, OpenAI API, GitHub

A production-deployed AI platform integrating three distinct systems for AI-powered analysis, summarization, and bias detection.

- Developed 90% of the frontend with React and TypeScript, implementing a responsive, highly interactive, and user-friendly UI while integrating Three AI-powered features.
- Designed and implemented frontend state management using Redux Toolkit Query, enabling automated caching, API synchronization, reducing redundant requests, and improving SEO performance by 92%.
- Led end-to-end backend with FastAPI, developing 2 of 3 generative AI features, integrating all AI systems, and implementing Redis caching and rate-limiting for optimized performance and stability.

AccessAbility (Capstone Project – Real-Time Location App)

Dart, Flutter, Firebase, Bloc Architecture, Google Map API, OpenAPI, Github

A mobile app that helps individuals with disabilities navigate safely with real-time tracking and emergency alerts

- Led full-stack development, integrating the award-winning UI/UX design while handling both frontend (Flutter & BLoC) and backend (Firebase, OpenAPI), including database and API design, implementing accessibility for 90% of PWDs
- Built secure and highly responsive features for navigation, fully functional SOS alerts, and voice-activated controls, supporting 50 users with disabilities and maximizing accessibility and reliability.
- Delivered a production-ready iOS and Android app for Dagupan City, with real-time PWD location tracking at 95% accuracy, enhancing safety, accessibility, and emergency response efficiency.

Telehealth Web (Healthcare Platform - Solo Full Stack Project)

Next.js, TypeScript, Tailwind CSS, MongoDB, Mongoose, Clerk, Pusher, Stream Video, Google GenAI, Cloudinary

A full-stack healthcare platform for online and in-person consultations, appointments and medical records

- Solo developed the platform with patient, doctor and admin workflows, including authentication, appointments, medical records, prescriptions and doctor verification
- Built real-time appointment tracking and online consultation using Stream Video and Pusher, with role-based access and protected routes.
- Integrated Google GenAI for AI-powered doctor recommendations and developed an admin dashboard for managing doctors, appointments, and patient records.

Technical Skills

Frontend Technologies and Frameworks: *React.js, Next.js, JavaScript, Dart, Flutter, TypeScript, Java, Kotlin, Angular*
Backend Technologies and Frameworks: *NodeJS, Express.js, FastAPI, Flask, Python, PHP, Laravel*
Database & Cloud: *MongoDB, PostgreSQL, MySQL, Firebase, Supabase, Vercel, Netlify*
***AI* & APIs:** *OpenAI API, Google GenAI, Ollama, GraphQL, Rest APIs, OpenAPI*
Tools: *Git, GitHub, Postman, Nginx, Docker, Trello*

Education

PHINMA - University of Pangasinan

Bachelor of Science in Information Technology, Major in System Development, June 2026

Certificates & Achievements

Best in UI/UX Design Project - *PHINMA University of Pangasinan, 2026*

Flutter & Dart: The Complete Guide - *Udemy, 2026*

Node.js, Express, MongoDB & More: The Complete Bootcamp - *Udemy, 2025*

The Complete JavaScript Course 2025: From Zero to Expert - *Udemy, 2025*

Participant, iThinkHackathon 2024 - *Internet Computer Philippines (ICP Hub)*

Participant, PHINMA University Hackathon 2023 - *PHINMA University of Pangasinan*
